

January 21-22, 2017

Top cross country athletes from across North America and around the globe will converge on ASC Training Center January 21-22, 2017 to compete in the fourth stop of the USSA's annual SuperTour, a vital piece of the USSA's development program and a proving ground for athletes with aspirations of making it to the U.S. Ski Team, the FIS World Cup tour and the Olympic Winter Games.

Hosting a major event in the Nordic racing world is second nature to ASC Training Center, but still an undertaking the club takes very seriously. "As the top cross country racing venue in the Western U.S., we've played host to numerous high level events and national championships over the years, including the SuperTour finals in 2013. This summer we built out a new FIS homologated 5km course which makes us an even more desirable venue for world class races such as this," said ASC Training Center's Executive Director Bill Clark.

The SuperTour stop at ASC Training Center on Donner Summit offers unique and high visibility sponsorship opportunities for local and regional businesses. ASC's race stadium will be alive with world class competitors and their entourages, hundreds of spectators and media personnel, and a live stream of the event will be broadcast globally. Sponsors will be showcased on event banners placed throughout the stadium and the podium area and featured in all event print and web-based promotional materials.

Choose from the sponsorship levels outlined below:

EVENT \$5,000	RACE \$2,500	GOLD \$1,000	SILVER \$500	BRONZE \$350	HOTEL \$200/2rooms	FRIEND \$100
